

getServerUrl

```
graph LR; A[getServerUrl] --> B[getZoneType];
```

A diagram showing a dependency between two methods. On the left, a white rectangular box with a black border contains the text 'getServerUrl'. A dark blue arrow points from the right side of this box to the left side of a second rectangular box on the right. This second box is gray with a black border and contains the text 'getZoneType'.

getZoneType
